I am a trained therapist with over 30 years of clinical experience supporting adults, youth and their families in mental health inpatient and outpatient clinics and teams, community agencies, post-secondary settings, and private practice. I also provide supervision to M.A. Counselling Psychology Students who are working toward registration with the BC Association of Clinical Counsellors. I use components of person-centred theory, attachment theory, family systems, mindfulness, and accelerated experiential dynamic psychotherapy (AEDP). My practice is an LGBTQIA2S+ friendly space and trauma-informed. I am an avid learner and continue to expand my knowledge base to provide quality services in both therapy and supervision.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Peer Supervision
- Peer Consultation

Type of Services

- Telephone
- Online/Remote
