Hello everyone. It is an honour and privilege to be able to offer supervision to new and fellow counsellors as I understand the struggles, concerns and questions that come with developing one's professional identity and competency! I am an RCC and an art therapist with extensive experience working cross-culturally in settings where advocacy, cultural sensitivity and a focus on systems have been paramount. I love working with emerging adults (age 17-23) as it requires a keen developmental lens and often invokes creativity.

My supervision practice is highly relational with a focus on your strengths and needs for development. I truly believe that vulnerability, courage, curiosity, a non-judgemental attitude and accountability in the supervisor-supervisee relationship are key for valuable learning and growth. I support creativity and critical thinking and am available for supervision for those who work in community agencies, colleges and universities, with international students and neurodiverse clients, and who are incorporating art therapy group work into their roles.

I look forward to hearing from you if you have supervision needs.
