I have a Masters Degree in Counselling Psychology and have been a clinical counsellor for 30+ years. Extensive experience with trauma, family work, youth, addiction, mental health, relationships, and crisis work but really after 30 years I have a great deal of experience in most areas! I have supervised a number of students and regularly consulted by colleagues. I use an eclectic array of methodologies and strategies to help my clients reach their goals. My time is fairly flexible at the moment.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Peer Supervision
- Peer Consultation

Type of Services

- Telephone
- Online/Remote
- In-Person
