Hello, my name is Laura Paetkau. I have been a grateful visitor on the territories of the Lkwungen and WSÁNEĆ peoples since 2007. I have been working at Camosun College since 2009 and have been supervising practicum students in this context since 2014. My approach to supervision is developmental in terms of meeting the individual based on where they are at in their career and skill development. Some people need more support while others might want more challenge. Just as my counselling practice is relational, holistic and integrative, so is my supervisory practice. Currently I am only offering supervision to practicum students in the context of my role at the College.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Group Supervision
- Peer Supervision
- Peer Consultation

Type of Services

- Online/Remote
- In-Person
