Hello, I'm a registered clinical counsellor, sexual health educator, and Ph.D. candidate in clinical sexology. As a constant student myself, consultation and supervision are true passions of mine. the exchange of experiences and knowledge keeps me learning, as well.

For consultation, I work with established counsellors on a case-by-case basis, or in an ongoing way. for supervision, I work with one student at a time (about one each year), so please reach out well in advance if you're curious about a placement. my work focuses on gender, sexuality, eating disorders, and social justice issues through an intersectional lens. the modalities upon which I most frequently draw include somatic, narrative, and dialectical behavioural therapies. if these are passions of yours, it may be the makings of a fruitful collaboration.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Peer Consultation

Type of Services

- Telephone
- Online/Remote
- In-Person
