I have over 20 years of experience providing clinical and psychotherapeutic services, working in hospitals, community psychiatric clinics, with non-profit agencies and in schools. This includes therapy with folks of diverse intersecting identities with experiences of mental illness, addiction and trauma. I have provided direct supervision to students in BA and MA programs as well as peer supervision to colleagues 1:1 and in reflective groups. I have a private therapeutic practice that offers a full continuum of services to adults, children (6 and up), couples/partners and families of all compositions. I also offer group therapy with multiple foci for therapeutic outcomes. I have training in several modalities, e.g., DBT, Narrative, EFFT and Somatic therapy. When possible, I work with/within nature as part of the therapeutic space and process. My overall approach is integrative, process-oriented and tailored to the unique therapeutic/supervisory relationship.
