My love of learning has culminated in my ability to provide supervision, both individually and in groups. I have specialized in Satir Transformational Systemic Therapy (STST) which has provided an open and strength-based forum for people to feel comfortable in sharing and learning. I am also certified as a supervisor with STST. I became an RCC in 2006. Prior to this, I was a Recreation Therapist. I have worked in the mental health field for four decades.

My passion is in seeing people grow both as individuals and as therapists. I look forward to learning with you.

Warmly,
Dr. Shelley Iberg
