I have been a Registered Clinical Counsellor since 2016, having obtained my Master of Arts in Marriage & Family Therapy at Trinity Western University in Langley BC. I continued to study complex trauma at the Justice Institute, and I am EMDR certified. I work with couples and have additional training in emotion-focused couples' therapy. I have supervised several Yorkville students during and after their practicum, taught an internship class for student interns at TWU. I currently participate in an EFT peer supervision group and am part of a supervision mentoring group. It is my commitment to keep learning and growing through roleplays, watching therapy videos together, and engaging the person of the therapist in reflective supervision.
