

Ava Razavi RCC-ACS

Hello, I'm Ava, a registered clinical counsellor with 12 years of experience. My expertise lies in several areas where I also provide clinical supervision. Primarily, I specialize in supporting children and youth facing childhood trauma, as well as providing guidance to families navigating separation and divorce. Additionally, I focus on psychotherapy for mothers dealing with postpartum challenges, infertility, and traumatic births. Teaching and mentorship are passions of mine, and I take pride in guiding students to excel in the counselling field. Alongside individual counselling, I have extensive experience coordinating counselling groups and utilizing video conferencing for therapy sessions. With a commitment to empathy and empowerment, I aim to provide comprehensive support in these critical areas of clinical supervision.
