I'm Ailey Jolie, a Chartered Psychologist (UK) , Registered Clinical Counsellor, and Certified Sex Therapist (ASSECT) with advanced training in somatic psychology, trauma integration, and depth psychotherapy. I am certified in SEP, CI, FOT, and IFS. My clinical approach blends relational somatics, intersectional feminism, and interpersonal neurobiology, rooted in over a decade of academic study and lived experience. I focus on working with trauma, sexual health, embodiment, disordered eating, and complex relational dynamics. My supervision style is collaborative, depth-oriented, and committed to fostering your unique voice as a practitioner while ensuring ethical and attuned care for clients. Whether you're exploring vicarious trauma, clinical stuckness, or the edges of your own embodiment, I hold space for honest reflection, skill development, and personal integration.
