Are you a counsellor or intern looking to deepen your skills and gain valuable insight from a seasoned clinical supervisor? As the Clinical Director at a non-profit counselling agency in Victoria, I bring extensive experience in supervising and guiding a diverse team of counsellors and graduate interns. Over the years, I have supported dozens of students and professionals in developing their clinical competencies, navigating cases, and building their confidence in the therapeutic process.

My approach to supervision is collaborative, supportive, and grounded in real-world experience. With a focus on ethical practice, client-centred care, and ongoing professional development, I provide a structured yet flexible environment that encourages growth and reflection. Whether you're seeking guidance on specific cases, developing your theoretical approach, or working toward registration hours, I offer supervision tailored to your unique needs and goals.

I look forward to working together to enhance your practice and ensure the best outcomes for your clients.
