Fee Guide

BCACC 2026 FEE GUIDE

INTRODUCTION

BCACC regularly conducts an environmental scan to determine a recommended fee rate for Registered Clinical Counsellors (RCCs) in private practice. This includes surveying its 9000+ membership, considering inflation rates, and assessing what other mental health professionals charge in BC and across Canada.

The purpose of this report is to support clinical counsellors by providing useful information they can use when deciding rates for services. Based on this analysis, BCACC recommends the following fee ranges. RCCs may choose to charge more or less depending on their individual circumstances and agreements.

DEFINITIONS

- **Less Experienced RCCs:** Less than 3 years post-masters
- **More Experienced RCCs:** 3-5 years post-masters + Relevant training and demonstratable skills
- **Clinical Supervisors:** Minimum of 5 years post-masters + Relevant training and demonstratable skills

GLOSSARY

Specialized Services

This refers to services delivered by clinicians who have completed substantial postgraduate training beyond foundational professional education, involving structured, multi-component learning (e.g. formal coursework, supervised practice, and/or certification processes with an evaluative component), and who demonstrate applied competence and ongoing clinical use of these skills within their scope of practice. Brief, introductory, and level one trainings alone do not meet this threshold.
