

Lilli Rosenberg RCC-ACS

My supervisory approaches draw on over four decades of educational and clinical experience. I have been working in the field of supervision since my early career as a guidance counsellor. Currently, I am providing supervision and consultation for professional counsellors in private practice. I also hold a position as a clinical supervisor for three non-profit agencies in Victoria. Additionally, I guide University students with their agency placements and requirements for Registration. Mentorship is where my vocation has led me. In my position as supervisor, my focus is on cultivating a trusting collegial relationship. I use a 5S Model of Structure, Strengths, Skills, Support, and Sustainability.
