As a Registered Clinical Counsellor and Approved Clinical Supervisor (CCC, CCS, RCC-ACS) with a Doctorate in Counselling & Psychotherapy, I offer collaborative, supportive, and growth-oriented clinical supervision for counsellors at all stages of practice. My approach is trauma-informed, person-centred, and strengths-based, with a focus on reflective practice, ethical development, and building clinical confidence. I bring experience working with diverse populations, including post-secondary, mental health, and addictions settings, and I aim to create a safe, respectful space where supervisees can deepen their skills, explore challenges, and strengthen their professional identity. Whether you are working toward registration or seeking ongoing consultation, supervision with me fosters both competence and resilience in your clinical work.

Area of Supervision:

- Clinical Supervision
- Clinical Consultation
- Group Supervision
- Peer Supervision
- Peer Consultation
