Sun Lee
RCC-ACS

With over 15 years of experience in education and seven years of practice in trauma care, I am passionate about supporting healing, learning, and professional growth. As the Founder and Director of Iceberg Counselling Inc., I bring a relational and collaborative approach to clinical supervision, grounded in trust, curiosity, and compassion.

My clinical approach draws on Adlerian and person-centered perspectives, with specialized training in Integrative Somatic Therapy Practice (ISTP™), bodywork, and art therapy. I value the integration of creativity, bodily awareness, and self-reflection in deepening our understanding of human experience.

Over the past six years, I have supported associates and practicum students in developing their clinical skills, confidence, and therapeutic identities. I see supervision as a shared journey of learning and growth, and I am committed to nurturing reflective, authentic, and compassionate clinicians who feel grounded in their work and connected to the people they support.
